TABLE I.

AREA, HOUSES AND POPULATION.

This Table shows for each district and the State of Manipur the area, the number of towns and villages, the number of occupied houses, and the total urban and rural population, male and female. The districts are arranged in this and other tables in the order prescribed by Government.

The total areas of the Province, of British Territory and of Manipur are shown as in the tables of 1911. These represent surveyed areas. The real area of Assam is somewhat greater; but as there are no defined outer boundaries to the Sadiya and Balipara Frontier Tracts, and certain areas added to the Naga Hills and Lakhimpur districts have not been surveyed, only the known settled areas have been shown in column 2 against those districts.

Under orders of Government the areas of districts have been adjusted for inter-district transfers in consultation with the Provincial Director of Surveys and District Officers.

For the purpose of column 3 (number of towns) cantonments have been treated as forming parts of the Municipalities which they adjoin.

NOTE.—Similar statistics for areas smaller than districts are contained in Provincial Table I which is printed at the end of the Imperial Tables.

TABLE II.

VARIATION IN POPULATION SINCE 1872.

1. The figures for 1911 and earlier years differ in several cases from those shown in the old Census Reports.

This is due to subsequent changes of jurisdiction or addition of new areas. The effect of these changes on the population of the districts concerned has been calculated and the figures adjusted accordingly.

2. The following are the districts affected by transfer of areas :—

Sylhet.—A small area transferred from Tippera, Bengal.

Goalpara, Kamrup, Nowgong, Sibsagar, Lakhimpur, Naga Hills.—Some inter-district transfers.

Sadiya and Balipara Frontier Tracts.—Districts newly formed by transfer of areas from Lakhimpur and Darrang districts. The populations shown for years previous to 1921 have been calculated from those of the transferred parts.

3. The areas censused for the first time, with their population are : —

Some Khamti, Singpho, Abor and Mishmi villages, East and North of Sadiya Frontier Tract, 14,400 ; Naga tribes and Abor villages to North of Lakhimpur, 1,720 ; Konyak territory to North-East of Naga Hills district, 7,400.

4. In columns 10, 11, 12, 13 the variations shown against the Province, [British Territory and Surma Valley and Hill Division are the variations of the total population shown against them and not the sum of the variations of their districts. Both Lushai Hills and Manipur were excluded from the census of 1872, and in 1881 Manipur alone was enumerated ; in 1891 the census papers of Manipur were destroyed in the insurrection, while the Lushai Hills was not censused but an estimate was formed of the population of the northern portion, which was the only part then in Assam.

Note.—Similar statistics for areas smaller than districts are contained in Provincial Table I, which is printed at the end of the Imperial Tables.

TABLE III.

TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

In this table, as in Tables I and IV, cantonments have been treated as forming part of the municipalities which they adjoin.

In Cachar, Kamrup, Darrang, Nowgong, Sibsagar and Lakhimpur and in the valley of the State of Manipur the cadastral village has been taken as the village. Elsewhere it is the residential village or group of houses bearing a separate name; small outlying hamlets have been treated as parts of the main residential villages to which they appertain.

TABLE VIII.

EDUCATION BY RELIGION AND AGE.

THIS table, like Table VII, is divided into two parts. *Part A* shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned; *Part B* gives details, for Districts and Manipur State, of the total population and of each main religion.

Columns 5 to 7 show persons literate in any language, including English. The figures for literate in English have been shown separately again in columns 11 to 13.

The following statement shows the literates among Indian Christians and other Christians separately :—

TABLE IX.

*EDUCATION.**BY SELECTED CASTES, TRIBES OR RACES.*

This table repeats the information given in Table VIII in respect of education with this difference that, whereas in that table the population is distributed by the age and religion, it is here arranged according to caste or tribe. Moreover in Table VIII the whole population is dealt with, but this table refers only to selected castes and tribes; the minor castes and tribes have been left out of account altogether, and even those selected for inclusion have been taken only for the districts where they were specially numerous. To save space, figures have been given, not for each district separately, but for groups of districts, the local conditions of which may be presumed to be fairly uniform.

It may be explained that the total district strength of a caste in this table does not necessarily tally with that in Table XIII and Table XII-A, as the latter include and exclude figures added and subtracted in the course of classification, which the present table does not.

- B. Of Asiatic countries beyond India.
- C. European languages.

Subject to classification of entries that do not indicate true languages, the figures are shown as actually returned.

In view of the completion of Sir George Grierson's Linguistic Survey, details of "others" have been omitted. These include minor languages and dialects and those spoken by very small numbers. They were shown in appendices in 1911.

Cross-grouping by linguistic families is shown in Chapter IX of the Report Volume.

TABLE XII.

INFIRMITIES.

The Infirmities recorded at the Census were insanity, deaf-mutism, blindness and leprosy.

The Table is divided into two parts—Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality.

Some unfortunate persons were returned as suffering from more than one infirmity. In the Table they have been shown under each. This explains why the total afflicted in columns 2, 3 and 4 does not quite agree with the total of the figures for each separate infirmity. The following is a list of these double entries :—

TABLE XIII.

CASTE, TRIBE, RACE, OR NATIONALITY.

THIS Table is divided into two parts: Part A gives statistics for castes and tribes of Hindus and Animists and some Buddhists. Part B deals with Muhammadans. The figures for Christians are omitted from this table as they are dealt with in Tables XV and XVI.

In view of the large number of memorials about caste-names and titles submitted by certain communities, the Local Government passed orders to the effect that every person enumerated should have his caste recorded as he himself gave it; and all were given to understand that the designations so recorded would appear as such in the final Tables, unless they were entirely functional; so classification has been avoided as far as practicable.

In order to reduce the size of this Table, all castes comprising less than one per mille of the provincial population have been omitted, with the exception of certain frontier tribes (*e.g.*, Khamtis, Daflas, etc.) and others which have been tabulated for administrative reasons. Castes with strength recorded below this standard owing either to real diminution, or to the adoption of new caste-names, are included in "Others" without any details.

Where some members of a caste or tribe profess one religion and some another separate figures have usually been given for each but if the second religion was returned only in one or two districts the figures for it have been added to those for the main religion, and the number so added has been noted in the column of remarks.

TABLE XV.

CHRISTIAN POPULATION BY SECT AND RACE.

THIS Table corresponds with Table XVII of 1911 and shows Christians of all races by Sects. Armenians have been classed under the head "European and allied races."

As it is intended to show Christians only, the category "Indefinite Beliefs" (Unitarians, Agnostics, etc.) of 1911 Table has been excluded from this Table and included under the head "Minor Religions" in Table VI.

TABLE XVI.

*EUROPEAN AND ALLIED RACES AND ANGLO-INDIANS BY RACE
AND AGE.*

This Table corresponds with Table XVIII of 1911.

In the case of Europeans and Anglo-Indians certain age groups are required for military purposes ; and in the case of Anglo-Indians the Sanitary Department also desired to have the same age groups as for the general population in districts ; hence this Table has been split up into two parts and re-arranged so as to give the information required in each case. Part A shows European and Allied Races including Armenians ; and Part B, Anglo-Indians with different age groups in each case.

In Part A, Armenians have been included under the head " European and Allied races." Their age groups are given below: —

| AGE GROUPS. | Males. | Females. |
|-------------|--------|----------|
| 30—39 ... | ... | 1 |
| 40—49 ... | 1 | 1 |
| Total ... | 1 | 2 |

The numbers of European and Allied Races as shown in Table XVI do not tally with those given in Table XV owing to the inclusion, in the latter of 27 males and 1 female who recorded their religions under the category Indefinite Beliefs.

The details of ' others ' in columns 22 to 38 are as follows :—

TABLE XVII.

OCCUPATION OR MEANS OF LIVELIHOOD.

THIS table corresponds with Table XV-A of 1911 and is the first of four which are intended to show statistics of occupation, the other three being Table XVIII which corresponds with XV-B of 1911 and shows subsidiary occupations of agriculturists, Table XIX (Mixed Occupations) which was optional and has not been compiled for Assam ; and Table XX which shows occupation by religion as in Table XV-D of 1911.

2. In this table occupations have been divided into four main classes which again have been subdivided into 12 sub-classes, 56 orders and 191 groups. This classification differs from that of 1911 only slightly as regards the orders but the number of groups has been increased. The table is divided into two parts and shows the number supported by each occupation, Part A, for the province and Part B, details for districts. Groups against which there were no entries have not been shown.

3. The term "Partially agriculturists" includes only those people whose subsidiary occupation falls under groups 1 to 5.

TABLE XVIII.

SUBSIDIARY OCCUPATIONS OF AGRICULTURISTS.

THIS table deals with the subsidiary occupations of (1) Rent-receivers, (2) Rent-payers and (3) Agricultural labourers and corresponds with Table XV-B of 1911.

The term "Rent-receivers" used here is identical with group 1 (income from rent of agricultural land); "Rent-payers," with group 2 (ordinary cultivator); while "Agricultural labourers" includes groups 3 (agents, managers of landed estates, etc.), 4 (Farm servants) and 5 (Field labourers) shown in Table XVII.

Certain occupations shown in the corresponding Table of 1911, *viz.*, Priests, Lawyers, etc., under Rent-receivers, Barbers, Washermen, etc., under "Rent-payers," Potters, Leather workers, etc., under "Agricultural labourers" have now been omitted owing to their numerical insignificance.

TABLE XXI.

OCCUPATION.

BY SELECTED CASTES, TRIBES OR RACES.

IN this Table statistics are given of the occupations of selected castes and races in areas where they are especially numerous or otherwise important. The occupations are arranged under 12 main heads corresponding to the sub-classes of the scheme of classification adopted in Table XVII : these heads have been subdivided, where necessary, in order to distinguish between different occupations. Columns 7 to 10 are intended to throw light on the extent to which traditional caste occupations are followed, while columns 11 and 12 are designed to make it possible to discount the tendency of functional castes to return their traditional occupations as their means of livelihood. The figures in the subsequent columns are exclusive of the number shown in columns 7 and 8 as following the traditional occupation.

TABLE XXII.—INDUSTRIAL STATISTICS.

— — — — —

Table XXII deals with statistics collected by a special Census of Industrial establishments employing not less than 10 persons. It does not include such industries as are carried on by members of a household in their joint interest with less than 10 hired labourers. In 1911 the scope of this special Census was limited to establishments employing 20 or more persons.

2. The table has been divided into seven parts—

Part I.—Provincial Summary of Establishments classified according to (1) the strength and nature of each and (2) whether power is used or not. This corresponds with Table XV-E, Part I, of 1911.

„ II.—Distribution of Industries by districts, corresponding with Table XV-E, Part II, of 1911.

„ III.—Classification of Establishments according to the class of managers and owners, corresponding with Parts III and IV of Table XV-E of 1911.

„ IV.—Caste or Race and Birth-place of skilled labourers classified according to Industries.

„ V.—Caste or Race and Birth-place of unskilled labourers classified according to Industries.

„ VI.—Details of power used in Industries.

„ VII.—Details of looms used in the textile Industries.

3. Part III has been compiled for the chief industries only, *viz.*, tea, coal, oil, rice, sawmills and engineering establishments.

4. Tea is the only important Industry in Assam and the distinction between the skilled and the unskilled in tea gardens is very vague and the two overlap; hence Parts IV and V have not been compiled for this Province. Provincial Tables IV, V and VI give fuller details in respect of the whole tea garden population, without distinction of skilled and unskilled.

5. Part VII does not apply to Assam.

PROVINCIAL TABLE I.

AREA AND POPULATION OF THANAS, MAUZAS, ETC.

This table is an expansion of Imperial Table I. Details are given for subdivisions and thanas in the Surma Valley and Goalpara, and in the latter district the Eastern Duars are also shown. In the other Assam Valley districts, mauzas have been shown thanawari under the orders of Government. In the Hill districts, local units have been given so far as known, *via* :—mauzas in the Garo Hills, Siemships, Doloiships, etc., in the Khasi and Jaintia Hills and subdivisions only for the Naga and Lushai Hills. The three newly formed hill subdivisions of Manipur State appear separately, and panahs are shown for the Valley subdivision.

The total areas for Assam, British Territory and Manipur are shown as in 1911. District areas have been adjusted from those of 1911 for inter-district transfers. Those of lesser units have been obtained from the local authorities and do not necessarily agree with district areas. The two frontier tract areas have been calculated on the surveyed parts transferred from Lakhimpur and Darrang districts in 1914; but the real area of the Sadiya Tract is given by the Political Officer as about 4,200 square miles and the density has been calculated on this area.

Village Census Tables have been supplied to all districts and to Manipur. Ten copies of these were printed for Nowgong and Sibsagar. In all other cases, owing to want of funds, a single manuscript copy only has been prepared.

PROVINCIAL TABLE II.

POPULATION OF THANAS, ETC., BY RELIGION AND EDUCATION.

In this table thanas have been shown except in the hill districts and Manipur State. In the hills, subdivisions have been given with the exception of the Garo Hills where mauzas have been shown; in Manipur figures for the Valley section have been given by panahs and those for the Hill Section by subdivisions.

Literate in columns 12 and 13 shows persons "literate" in any language including English. The figures for "literate in English" have been shown again separately in columns 14 and 15.

The figures for "literate" and "literate in English" in minor divisions include all religions, as do the district figures. They cannot be compared fairly with those for 1911 when Christians, Buddhists and others were omitted from the minor divisions.

Village Census Tables, separately compiled and supplied to each District Officer and the Manipur State, shows the population of villages by religion.

PROVINCIAL TABLE IV.

*EASTERN BENGAL IMMIGRANTS BY AGE, RELIGION AND
OCCUPATIONS.*

This table is intended to show the influx of Hindu and Muhammadan colonists to the Assam Valley (excluding Garo Hills) from certain districts of Bengal. Other religions have not been shown owing to their numerical insignificance.

In order to distinguish the land settlers from others, such as clerks and traders, the occupations have been shown separately for cultivators and others.
